Why George Nye and his Diaries Are Important To Us

- George H. (Henry) Nye was the superintendent of the Laurel Cotton Mill for more than 7 years - 12 years after the end of the Civil War, and 7 years after Laurel was chartered as a town.
- His diaries reveal daily life for a well-off Laurel citizen of the period.
- They also provide critical information on the operations of the Laurel Cotton Mill.
- An unsurpassed resource from that time period.
About George Nye (1828-1908)

• Born in Hallowell, Maine
• Worked in Textile Mills for much of his life, managing operations in several of them.
• In the Civil War he was an officer and soon commanded Infantry Units:
  – 1st Maine, 10th Maine, 29th Maine Veteran Volunteers
  – Stationed nearby for a time - in Washington; Patterson Park, Baltimore; and Annapolis Junction
  – Fought at Cedar Mountain, Antietam/Sharpsburg, the Red River Campaign, and Cedar Creek; wounded several times
  – Named Brevet Major General at the end of the war
• He came to Laurel with his wife and five children.
• His wife died here in Laurel, in 1883.
• After Laurel, Nye moved to South Natick Massachusetts
George Nye in Laurel

- Superintendent of the Laurel Cotton Mill 1877 – 1885
  - Transferred from Hochelaga Cotton Mill where he was superintendent, near Montreal, Canada
  - Recruited by James A Gary, manager of a number of mills in Maryland over a period of years.

- His Family:
  - Wife Charlotte “Charlie”
  - Son George “Georgie”
  - Daughters Clara, Charlotte “Lottie”, Gertrude “Gertie” and Grace “Gracie”
How We Got the Diaries

• The 1878 Hopkins Atlas map of Laurel shows “Gen Geo H. Nye, occup” Brandon Gill and Ken Skrivseth at the museum did early search ~1998 and found some leads. Prior to that time we had no knowledge of George Nye and his role in Laurel.
Acquiring the Diaries

• We learned that Nick Picerno, avid Civil War collector of 1st, 10th, 29th Maine memorabilia, held many diaries and papers of George Nye.

• Contacted Nick, who told us he had diaries from 1877, 1878, 1879, 1880, and 1882, plus other papers. These were acquired for the museum after funds were raised. Later the 1885 diary was also acquired.
First Steps With Diaries

• An early diary review revealed information on many local activities and connections to national events.

• A 1998-1999 museum exhibit focused on the diaries.
First Steps with the Diaries

• The early review of the diaries also revealed over a hundred names including local citizens, business associates, social and military friends – many previously unknown.
  – An Excel file incorporating these names was created.
  – A printout is available to the public in the LHS library

• Microfilm was made including Xerox copies of all the diaries, generously donated by Octo Publishing Corporation, a local Laurel business. This protected the fragile diaries and provided better access to their content.

Full transcription was always a dream and goal.
The Transcription Process

• Additional diary copies were made from the early Xerox to allow research and aid in transcription.

• Transcription to Microsoft Word file is initially done looking at the diary copy, not the original.
  – One or two persons, diary copy and a computer.
The Transcription Process

- Word processor text uses the same line breaks as the original diary, to facilitate further review and revision.
- Handwriting can be difficult to read (not infrequently).
  - These places are marked for further review ‘*****’
The Transcription Process

Last review & revise steps involve handling the original diaries using museum gloves and often a magnifier, a painstaking process for two people.
Transcription Format

• A side-by-side diary copy page and the transcribed text appear on each page.
