Laurel Historical Society Statement On Pur Hana Tastee Diner Application Withdrawal

Laurel's historic Tastee Diner won a reprieve last night when Pur Hana withdrew its special exception application. However, this uniquely pristine Comac Diner remains very vulnerable, since the owner still wants to sell his property. The Laurel Historical Society hopes that the City, the owner, and the community can come together to preserve this nationally important historic structure and cultural landmark. This episode is also a wake-up call that we need to identify and protect all our historic and cultural resources within, and outside Laurel's current Historic District.
